

Task 1

Website inspirations

<https://www.lilianasanguino.com/>

<https://www.showstudio.com/tags/liliana-sanguino-ramirez>

<http://www.richardprince.com/exhibitions/>

These websites belong to artists Liliana Sanguino and Richard Prince, which heavily reflect the genre I wish to utilize for my website design. They offer an extremely simple and clean design while also maintaining a professional and blunt atmosphere. I believe the genre these websites lie under when taking into account the avant-garde style art being displayed is called **minimalist surrealism**, which I will be directing my focus to. A good artist for this genre that I will be making the website for is Christopher Wool.

Website structure specification

The Homepage will display some of Christopher Wool's most successful exhibits and prominent artworks and will just be titled Christopher Wool, with the biography page titled About the Artist, expanding on these accomplishments with further detail along with Wool's personal story and background information. The merchandise listing page will be called Wool's Works and simply display images of the merchandise (most likely real since he has some released) with a price and name. Clicking on an item will lead to a different page that will go into detail to meet requirements such as the id, description, type, publish date, etc. and be titled based on what the item clicked on is. The basket page is self explanatory and will display what items the website user has added to their basket, called Your Bag which I based on online shopping websites I use.

User Personas and Stories

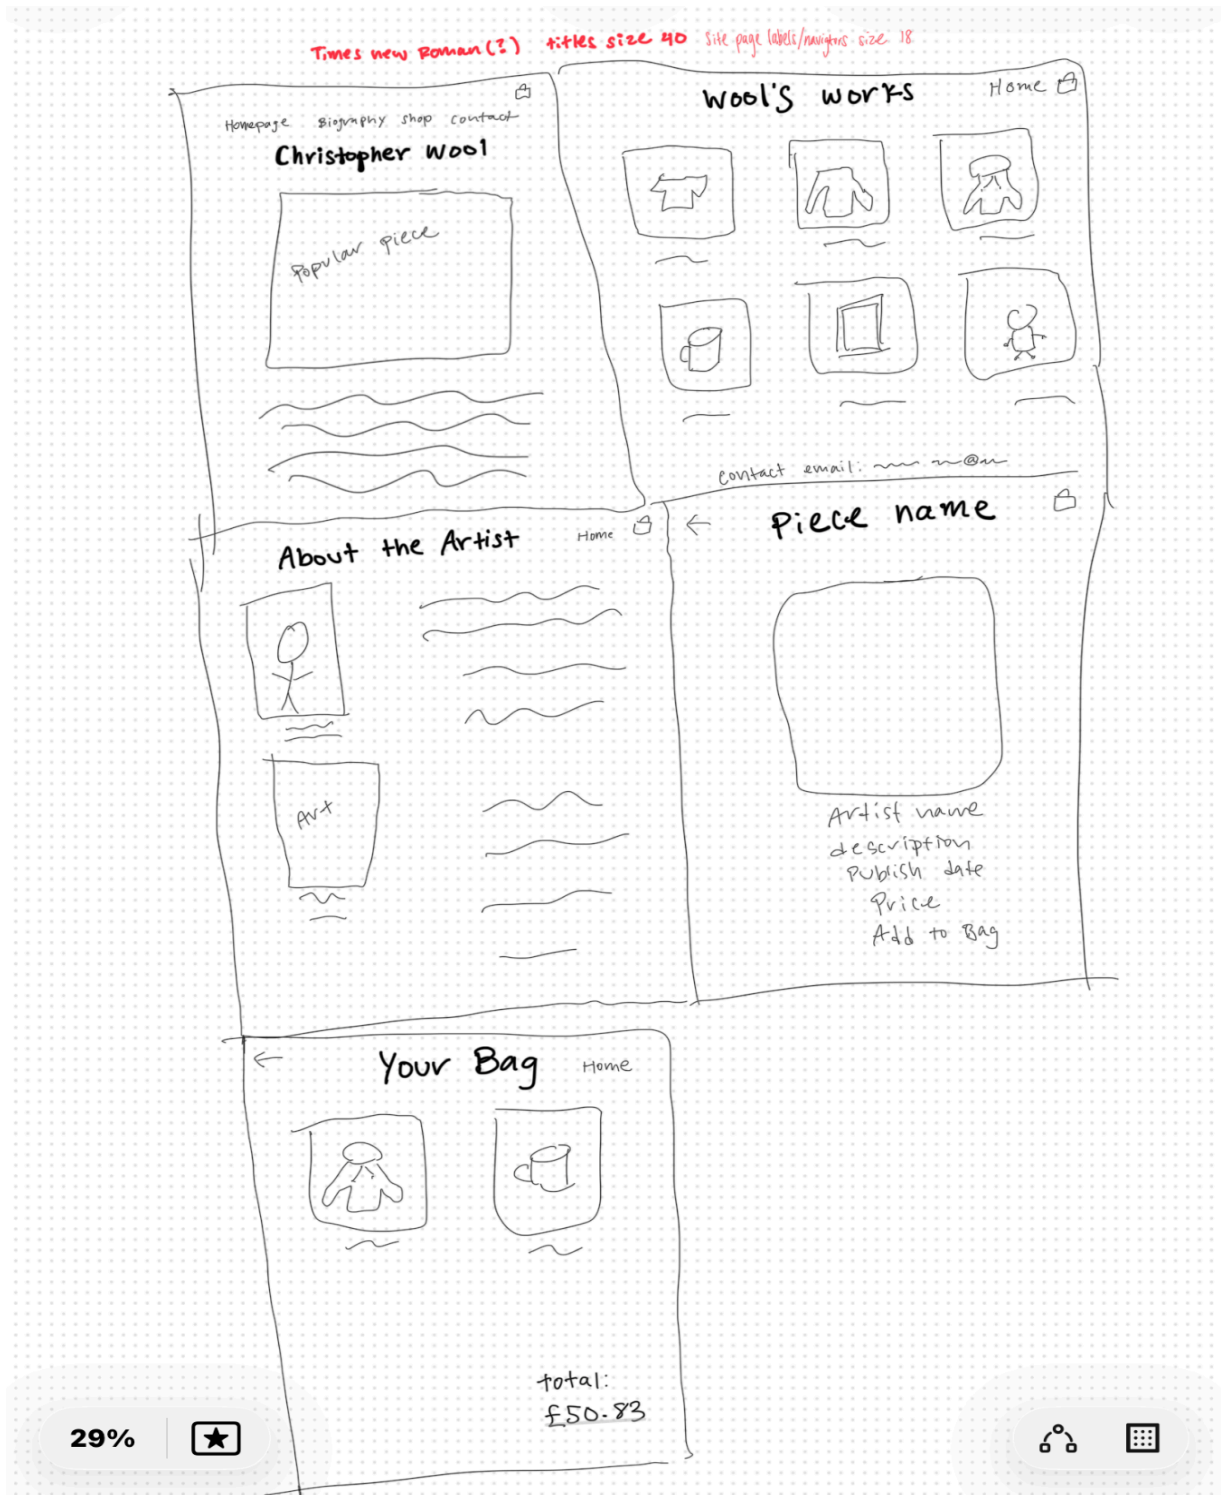

As an educator in the fashion industry, I want to support other artists so I can take inspiration in future projects.

Name		Liliana Sanguino	
Age 31	Bio	Goals	Personal motivations
Employment Masters in Fine Arts (MFA) Director at Parsons School of Design	Fashion design academic, researcher, and associate professor for Parsons School of Design. Passionate about the development of modern fashion and integration of cultural studies into design. Socially engaged practices such as collaboration with peers and diverse communities are pinnacles of my research and personal work.	To educate students on the importance of fashion design in the development of modern culture and its impact on humanity. I want to shine a light on the beauty within fashion design and promote personal growth along the way. I currently am set on redefining fashion collaboration and curation, focusing on Indigenous and subaltern communities.	<i>Making a lasting impact on students lives</i>
Personality keywords			Social motivations
Passionate Creative Leader Curious Independent			<i>Becoming more aware of the impact marginalized communities have on fashion.</i>
			Financial motivations
			<i>Making my research prominent in the industry</i>
Image	We must:	We must not:	
	Provide relevant and intimate details surrounding artwork and its inspirations/background to maintain the authenticity of the artwork as well as give recognition to appropriate sources.	Make the website too difficult to use as this user is not as tech savvy and is often working hands-on with more physical resources and simple programs.

			Tablet
			Laptop
			Desktop
			Social net

As an amateur art collector, I want to discover more up and coming artists and find the next art craze so I can make a valuable investment.

Name			
Jordan Green			
Age 25	Bio	Goals	Personal motivations
Employment Equity trader, Art collector	New York based Equity Trader and Art collector on the side. I graduated from Columbia Business School with a Bachelor's in Economics and am an intermediate market advisor with York International.	With art being my main passion, I hope to eventually make collecting and trading artwork my main source of income. I hope to make my presence within the art sphere of New York more prominent through collaborating with impactful artists.	Improve my understanding of independent business ventures
Personality keywords			Social motivations
Ambitious Motivated Positive Attitude Outgoing Energetic			Make strong and meaningful connections in the art industry
			Financial motivations
			Expand my resume and display more expensive pieces
Image	We must:	We must not:	
	Make the website user eye-catching and high-end. Aesthetically pleasing and professional design are important for an individual who is looking to climb in the art industry.	Leave the website too vague. Details surrounding Christopher Wool's career along with ways to contact him/his management are important for potential business opportunities.

Task 2

Design Inspiration

Some websites that fall under the **minimalist surrealism** genre, including Christopher Wool's website:

<https://www.luhringaugustine.com/artists/christopher-wool#tab:thumbnails>

<https://www.siteinspire.com/websites/categories/art/minimal>

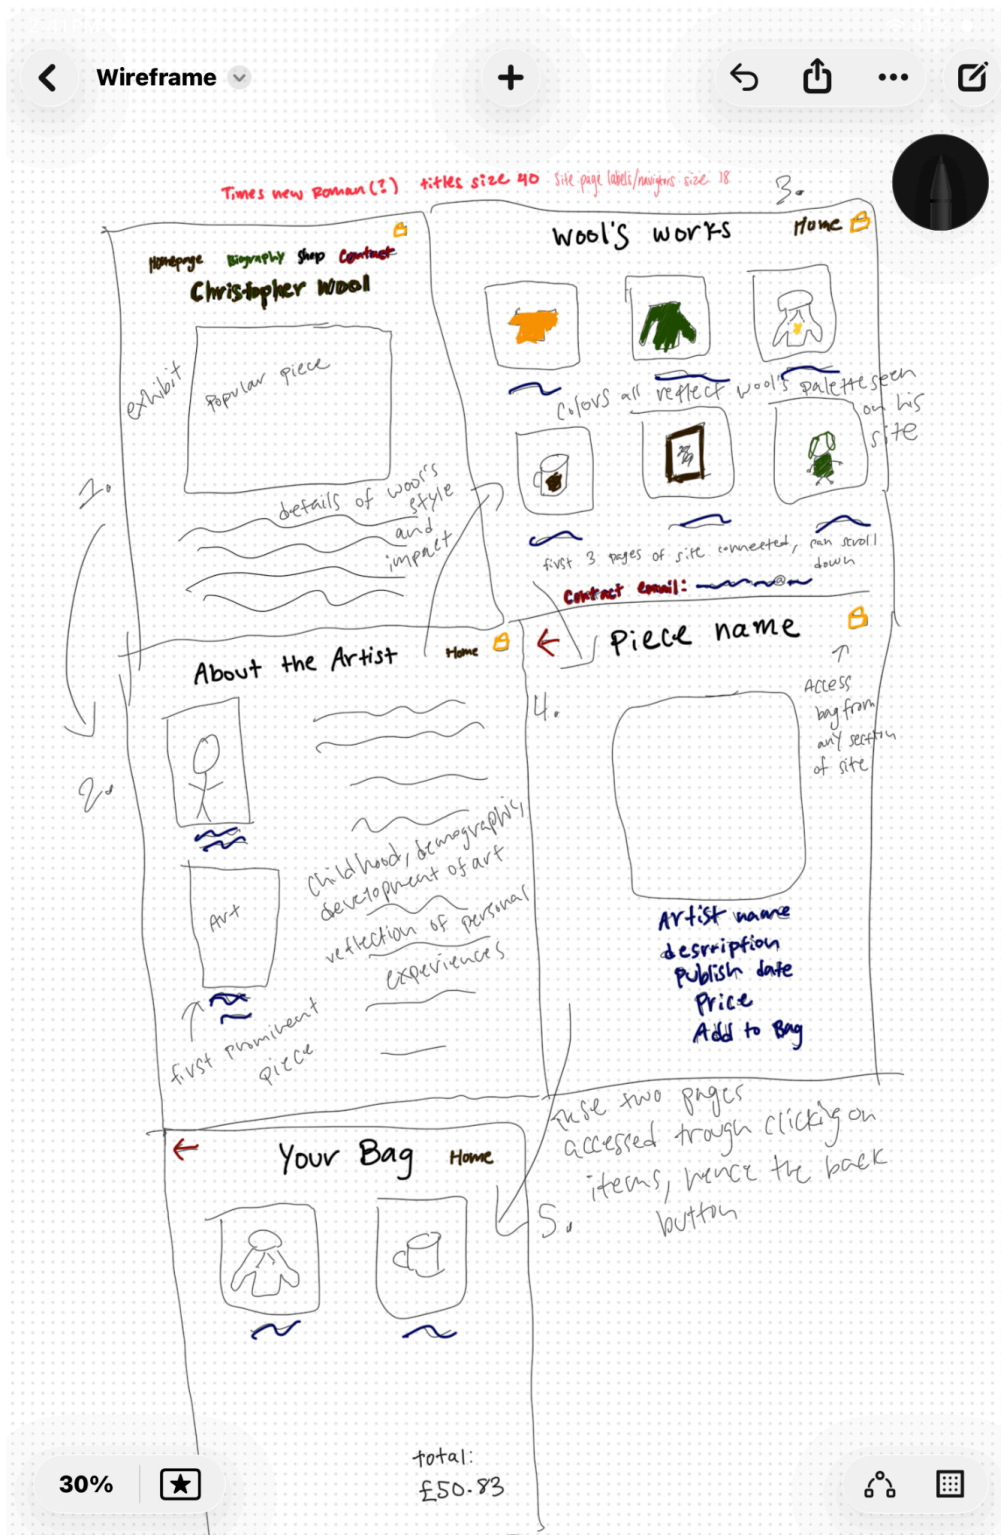

<https://kiangmalingue.com/?ref=siteinspire>

<https://www.thebroad.org/art/christopher-wool>

<https://www.maxhetzler.com/artists/christopher-wool>

These websites are a perfect example of the vision I have for my website, with the second website [siteinspire.com](https://www.siteinspire.com) being an extremely powerful resource. Not only is the website itself fitting of my genre, but it is a site that allows me to filter out different genres of websites and provides me with a thumbnail and link to all which fall under the desired filter. I selected “minimalist” and “art” to find some useful examples of websites for art galleries, which will be the intended feel of my website.

Annotated Wireframe with color concept

HTML evaluation and CSS Evaluations.

- Error** Bad value `\CE154\css\style.css` for attribute `href` on element `link`: Backslash ("\") used as path segment delimiter.
From line 10, column 5; to line 10, column 55
`1.0"><link rel="stylesheet" href="\CE154\css\style.css"></hea`
- Error** Element `head` is missing a required instance of child element `title`.
From line 11, column 1; to line 11, column 7
`yle.css"></head><!--`
Content model for element `head`:
If the document is an [iframe srcdoc document](#) or if title information is available from a higher-level protocol: Zero or more elements of [metadata content](#), of which no more than one is a [title](#) element and no more than one is a [base](#) element.
Otherwise: One or more elements of [metadata content](#), of which exactly one is a [title](#) element and no more than one is a [base](#) element.
- Error** Bad value `M:\CE154\images\installation-christopher-wool-srgm-2013-10-870x580.jpg` for attribute `src` on element `img`: Illegal character after `m:`. `\` is not allowed.
From line 27, column 9; to line 27, column 133
`>`
- Info** Trailing slash on void elements [has no effect](#) and [interacts badly with unquoted attribute values](#).
From line 27, column 9; to line 27, column 133
`>`

W3C CSS Validator results for style.css (CSS level 3 + SVG)

Sorry! We found the following errors (2)

URI : style.css

76	.bio img	Value Error : padding-bottom <code>-100px</code> negative values are not allowed : <code>-100px</code>
95	.bio .p2	Value Error : padding-top <code>-50px</code> negative values are not allowed : <code>-50px</code>

Based on this feedback, I changed my incorrect syntax for CSS padding values, and also fixed my image paths and CSS stylesheet path to have forward slashes instead, due to backslashes not being readable in browsers.
